

The Glades

The Glades Country Club offers 3 golf courses, 10 tennis courts and 10 heated swimming pools spread over its area. There are over 4000 palm trees. The grounds are well kept by over 60 workers that are continuously taking care of the grass, the flowers, shrubs and the trees. A large Clubhouse, a golf and tennis Pro-Shop and a Restaurant (the 19th Hole) take care of the people spending their time in the Glades Country Club. Since this is a low density development the place is never crowded and the buildings are widely spread apart. Because of the many small lakes in the Glades Country Club there are a lot of birds roaming around, from the comarans and ducks in the water to the egrets and blue herons. Turtles are taking the sun along edges of the lakes. As this is a mature area, there are no more new buildings going up, which means this is a place to enjoy and relax. The Glades offer tennis and golf, golf and golf. The Glades Country Club is one of the best run and organized playgrounds in the Naples area.

The Glades Country Club offers an in town location, you can't get closer to downtown Naples while enjoying golf club living. Plenty of restaurants, shopping within on mile radius and 2 miles to Naples beaches and Old Naples with its famous 5th and 3rd Avenue.
